SUMMARY

Tech Lead and Full-Stack Engineer passionate about building and scaling products from idea to launch in fast-paced startup environments. Skilled in Software Engineering, with hands-on experience developing MVPs, iterating quickly based on user feedback, and driving product-market fit. Combines strong engineering skills with product thinking to deliver lean, scalable solutions that fuel growth. Thrives in dynamic teams, taking ownership and turning bold ideas into impactful digital products.

WORK EXPERIENCE

RAY Healthcare (Web Developer)

March 2026

- Developed the official organization website, delivering a responsive, accessible, and visually engaging platform

Traved Consult (Software Engineer)

January 2026

- Developed the official company website for Traved Consult, building a scalable and visually engaging platform to support brand visibility and online presence

ClueCode (CEO & Founder)

November 2025

- Founded and lead ClueCode, overseeing the development of custom software systems for clients and driving overall product and technology direction.
- Lead ClueCode as CEO, building client software systems while also driving technical leadership, mentorship, and training programs for young developers.
- Founded ClueCode, directing both the company's technical operations and educational initiatives, including webinars and training sessions to equip young people with tech and leadership skills.

NexaGrowth Africa (Tech Lead & Software Engineer)

March 2025

- Tech Lead at Nexa Growth Africa, leading development of digital platforms for startups and students.
- Tech Lead at Nexa Growth Africa, overseeing technical development and system architecture.
- Led technical development at Nexa Growth Africa, building scalable digital solutions.

Giant-Merce (CO-Founder & Chief Technology Officer)

December 2024

- Co-Founded Giant Merce and led the technical development and system architecture of the platform.
- Co-Founder & CTO at Giant Merce, overseeing product engineering and technology strategy.
- Led the design and development of scalable systems as Co-Founder & CTO at Giant-Merce.

Addie's Afrique Foundation (Chief Technology Officer)

September 2024

- Chief Technology Officer at Addie's Afrique Foundation, leading the development of digital platforms supporting programs and outreach initiatives.
- CTO at Addie's Afrique Foundation, overseeing technology strategy, systems development, and digital transformation of foundation activities.
- Led technical operations as CTO at Addie's Afrique Foundation, building and managing platforms for education, engagement, and impact programs.
- Chief Technology Officer at Addie's Afrique Foundation, driving the design and implementation of scalable digital solutions for social impact initiatives.

Heidelberg Materials Digital Hub, Ghana (Intern Web Developer)

October 2023

- Intern Web Developer at Heidelberg Materials Digital Hub, Ghana, supporting the development and maintenance of internal web applications.
- Assisted in building and maintaining web solutions as an Intern Web Developer at Heidelberg Materials Digital Hub, Ghana.
- Supported web development tasks and platform enhancements as an Intern Web Developer at Heidelberg Materials Digital Hub, Ghana.

EDUCATION

Kwame Nkrumah University of Science and Technology

January 2022 – September

Bachelor of Science in Computer Science

2026

- Relevant Coursework: Software Engineering, Artificial Intelligence, Data Structures, Web-Based Concepts And Development, Mobile App Development, Information Technology, Object Oriented Programming With JAVA, Data Communication, Open-Source Operating Systems, Database Concepts and Technologies, Programming With Assembly Language, Programming With VISUAL BASIC, Discrete Mathematics.

Forces Senior High & Technical School

November 2018 – October 2021

Senior High School Certificate – General Science

- Relevant Coursework: Information and Communication Technology, Elective & Core Mathematics, Physics

CORE SKILLS

- **Frontend Development:** React.js, React Native, Next.js
- **Backend Development:** Node.js, Express.js, SQL (MySQL, PostgreSQL)
- **Programming Languages:** HTML & CSS, JavaScript, VB.NET, TypeScript, Java, Python.

GENERAL SKILLS

- **Technical Skills:** Frontend Development, Backend Development, Database Management, Responsive Web & Mobile App Development, System Architecture & Software Design, Version Control.
- **Product Engineering:** End-to-end Product Development, Scalable System Design, UI/UX Implementation, Performance Optimization, Agile Development Practices.
- **Leadership & Soft Skills:** Technical Leadership & Team Management, Project Management, Problem Solving & Critical Thinking, Mentorship & Training, Communication & Collaboration, Startup & Innovation Mindset.

ADDITIONAL INFORMATION

- **Interests:** I am passionate about software development and emerging technologies, with a strong interest in building innovative digital products, mentoring young developers, and using technology to solve real-world problems and drive community impact.
- **Certifications:** **Artificial Intelligence Fundamentals** (IBM Skills Build), **Cybersecurity Fundamentals** (IBM Skills Build), **Senior High School Renewable Sources of Energy Challenge 2021** (Energy Commission of Ghana).
- **Awards/Activities:** Led ClueCode's "Leadership in Tech" program, successfully training over 20 young people in practical tech skills, and spearheaded the digital execution of Addie's Literacy Project under Addie's Afrique Foundation through the DigiLit initiative, where I contributed to teaching digital literacy in rural communities and helped design an education-focused system to support technology-enabled learning.
- **Languages:** English (Fluent), Twi (Fluent), Ga-Dangbe (Native)
